Used 1998 Dodge Neon Features & Specs | Edmunds

The only ways to reset the check engine light on a Dodge Neon are to use an onboard diagnostics tool or to disconnect the battery. Although disconnecting the battery resets the check engine light in most cases, most mechanics do not recommend this method for cars with anti-theft systems.

How Do You Reset the Check Engine Light on a Dodge Neon?

In totally stock form, the Neon delivered 100.1 hp and 104.6 lb-ft of torque at the front wheels. For a stock SOHC four-cylinder, 100 hp at the wheels is a very respectable number; a showing...

1998 Dodge Neon - Mopar Muscle - Hot Rod

A solid check engine light does not always mean an emergency, but it is important to have the codes read as soon as possible. If your Dodge check engine light is flashing, it means the ECU has detected an engine misfire. Do not operate your vehicle for an extended period. Driving when the check engine is flashing can cause damage to the engine ...

Dodge Check Engine Light On Troubleshooting Guide | YOU CANIC

The number one reason that your Neon would have low oil pressure would be a lack of oil. The first thing you should do, is check your engine oil level. If the engine oil level appears to be low (or empty), you ' ll need to fill it up. Do not drive a vehicle with low engine oil to the store to buy more oil.
