Chromosome Study Answer Key | www.purblind

Creating a Karyotype: A Chromosome Study. An examination of the chromosomes of a cell under high magnification can give a lot of information about an organism. If the cells are from an unborn human, its sex can be determined before it is born. It can also be determined if the unborn may have certain birth defects or problems caused by improper chromosome numbers in its cells.

Creating a Karyotype: A Chromosome Study

Teacher's Guide for " A Chromosome Study ". This activity requires students to cut and paste paper models of chromosomes in order of largest to smallest. The chromosomes must be paired with their homologs. Students will often have trouble finding pairs and getting the exact matches and size orientation. Generally, when grading I look to see if it look mostly right, and look for the specific abnormality showing an extra chromosome.
