Cultural messages bombard students daily, laden with unstated rules about what makes our work valuable, our bodies ideal, our connections meaningful. Acting Out Culture empowers students to critically read those messages and use writing to speak back to their culture and question its rules. This book appeals especially to those students who are not full participants in the dominant culture, as well as to their instructors, who want to help students see how subtle (and not so subtle) cultural forces can shape their lives--and how they can challenge and resist those forces. The new edition of Acting Out Culture builds on that success, with provocative readings (more than 50 percent of them new) that challenge the rules we live by; pedagogical tools to encourage students to read, think, and write critically about their culture; and instructional support featuring sample syllabi, additional discussion topics, and ideas for teaching with visuals and online content.

Students are bombarded every day with media messages laden with rules: how true patriots should act, how healthy people eat, what real women should look like. Acting Out Culture is the first thematic composition reader to focus students' attention beyond what rules and norms govern their everyday behavior to how the rules themselves have been shaped over time. The author, James Miller, has drawn on his cutting-edge expertise in cultural analysis to help students inquire into those social norms and respond with writing that positions them as citizens making informed decisions about their world.

"Clarifies why understanding Mark Twain's writing is essential to understanding enduring patterns and problems in American culture. Conversely, it compellingly illustrates why one does not fully understand Mark Twain's work unless one has some understanding of America's preoccupation with performance, conspicuous display, and the mental sciences."--Howard Horwitz, author of "By the Law of Nature: Form and Value in Nineteenth-Century America" "In place of the strictly literary frame of reference that has previously organized the Twain canon, Knoper productively focuses on the spectrum of theatrical attitudes whereby Twain reconfigured his culture's race and gender hierarchies into the power to construct social realities differently. This work is sure to play a significant role in the reinvention of Mark Twain for the New American Studies."--Donald E. Pease, editor of "Revisionary Interventions into the Americanist Canon" "Knoper takes up quintessential aspects of Twain's writings, mind, and career. . . . [He] is brilliant in enunciating clearly and coherently ideas and attitudes that Twain either held confusedly or intimated almost unintentionally."--Louis J. Budd, author of "Our Mark Twain"

The award-winning anthropologist Sherry B. Ortner draws on her longstanding interest in theories of cultural practice to rethink key concepts of culture, agency, and subjectivity.

"This best-selling combination rhetoric and thematically organized reader shows students how to analyze all kinds of arguments, not just essays and editorials, but clothes, smartphone apps, ads, and Web site designs, and then how to use what they learn to write their own effective arguments. Newly streamlined and featuring e-Pages that take argument online, its signature engaging, informal, and jargon-free instruction emphasizes cultural currency, humor, and visual argument."--Back cover.

This American classic has been corrected from the original manuscripts and indexed, featuring historic photographs and an extensive biographical afterward.

Marshall Sahlins centers these essays on islands--Hawaii, Fiji, New Zealand-whose histories have intersected with European history. But he is also concerned with the insular thinking in Western scholarship that creates false dichotomies between past and present, between structure and event, between the individual and society. Sahlins's provocative reflections form a powerful critique of Western history and anthropology.
