A revelatory and timely look at how technology boosts our cognitive abilities—making us smarter, more productive, and more creative than ever It's undeniable—technology is changing the way we think. But is it for the better? Amid a chorus of doomsayers, Clive Thompson delivers a resounding "yes." In Smarter Than You Think, Thompson shows that every technological innovation—from the written word to the printing press to the telegraph—has provoked the very same anxieties that plague us today. We panic that life will never be the same, that our attentions are eroding, that culture is being trivialized. But, as in the past, we adapt—learning to use the new and retaining what is good of the old. Smarter Than You Think embraces and extols this transformation, presenting an exciting vision of the present and the future.

Test your knowledge with 5th graders on 3,000 grade school questions.

Here are three currently accepted scientific theories preached as facts that are simply wrong; this book gives the true the correct answers that have been ignored or overlooked by science. The sun is composed mainly of hydrogen gas! Wrong and simply impossible by the known laws of physics and yes the physics of the Earth are the same as the physics of space therefore if you know the laws of physics on Earth you also know the laws of physics in space. Gravity and the Earth have largely remained the same throughout the age of the Earth. False, gravity on Earth is changing, has changed and will continue to change. Dinosaurs are extinct! False they are todayOs mammals. EarthOs increasing gravity has simply decreased all animals and plants in size over the ages of Earth."
