There are countless books on the market about nutrition, diet, and exercise in isolation.Optimal Aging brings these topics together as they relate to the process of aging and the diseases which so often accompany it. Written by Jerrold Winter, PhD, a professor of pharmacology and toxicology and the author ofTrue Nutrition True Fitness, this book provides an integrated discussion about health matters, offering evidence-based advice regarding nutrition, exercise, and the use of pharmaceuticals as they relate to dementia, obesity, diabetes, cancer, pain, and other hazards of aging. Amid a sea of contradictory information about what's healthful, Optimal Aging stands out, delivering a comprehensive discussion about healthy living that's buoyed by source references, illustrative anecdotes, and just the right dose of humor. Drawing from current scientific understanding and providing historical perspectives, Winter speaks sensibly about drugs and their effects, vitamins and minerals, exercise, weight control, and treatment of age-related symptoms and diseases. With this authoritative book in hand, you'll gain a fundamental understanding of the disparate factors that come together to influence your well-being, setting you on the path to a longer, healthier, and happier life.

Lark isn't your normal princess. She's the princess of Myrinor, an influential kingdom with a rich history. Along with that title come great responsibilities, such as learning swordplay, trying her best to be the perfect role model, and most importantly, hiding her deepest secret. As days go by, she discovers that her best friend, Julian, is not what he seems. An ancient curse resurfaces from the past and drags them both into the heart of a forgotten kingdom. The fates of both kingdoms rest in their hands. The quest begins to end it all.

Lis is indeed a game that we all play to pass time: simply a series of days strung together, made up of how you planned or decided to spend the moments. Like any game how well it is played or whether life's circumstances are interpreted accurately, then used to the best advantage, makes losers and winners to varying degrees. Senseless insanity is alive and well within the world. The world is awash with unruly forces, that if not intent upon harming you do desire to become a destabilising force, either temporarily or over the long term. We are all participants in a charade, how life evolves and turns out all depend on how well the game is played. It is not wise or ideal to treat life like a game of chance, a random roll of the dice that can determine unpredictable outcomes. The cost of success is the careful application of well thought out concepts and ideas. Like any game preparation is critical; understanding the rules, knowing how to manipulate the dynamics at play efficiently to ones own advantage, understanding the intricacies of the rules and how to capitalise upon or create opportunities, pursuing whatever circumstances are present to maximise whatever potential exists to the best advantage. The potential opportunities in life are only limited by the inability to firstly comprehend them and secondly to fully utilise personal abilities to maximise the potential that is available. Don't wait for special times to evolve, rather create them in accordance with your true desires to experience what you wish to make real. Much like any game, the game of life has things that can be obtained, or things that can be lost. How the game is played, the value of the stakes, the opposing factions all come to dictate an outcome, be that favourable or lacking any resemblance of being lucky. A life lived based upon any reliance on luck or fate being favourable is tempting only to the over optimistic, or those extremely lucky ones or who were fortunate in the past and believe that good fortune will continue in the future. While it takes resources to control the world, the control of your own specific world environment is really within your potential to achieve. How you choose to control your world, as well as to what extent your desires are put into action, determine whether your life will meet your wishes or not. The amount of thought and energy you exhort, the persistence of that effort, all comes to determine whether and to what degree what you want is what you actually get. In life you may win or loose at times, it's basically just like playing a game; the right mentality is chancing the wheel of life by trusting and ensuring you will win just the same.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

CHILDREN OF NOW AND BEYOND is a book geared to create an awareness of the influx of Indigo and Crystal Children being born in large numbers onto the planet since the 1980's. They are a new generation of children with specific personality traits that will be the great transformers of this new humanity, acting as a bridge to a new form of consciousness. But only if we learn how to listen to them.

The Mental Game is the most important game you'll ever play. If you didn't know, you're already playing it. Hopefully, you knew that. It's hard to win a game you don't even know you're playing. This book is a primer to start your All-Star career in the mental game. The next steps are my books The Mental Handbook and The Mirror Of Motivation. Here, you'll get 100 disciplines for your mental game which you can start using in the very spot you're sitting. Yes - right now. No waiting or preparation needed. Just start reading and do what I tell you, and the results will be self-evident. Your only job is to stick to the disciplines. You'll learn about: Decision-making How to lead people What to do with the negative thoughts that creep in when you least want them Goal setting Selecting and keeping friends Tips for managing your time Taking care of your body, since the mind and body work together How to stand out from the crowd - any crowd The type of questions to ask yourself And much more. The mental game is an unforgiving game. When you make a mistake, the laws of the universe demand you pay immediately. The game is 100% fair at all times too. When you play the right way, the results create a momentum which only you can stop. And when you see the results, why would you even want to?
