Boards of directors are sitting ducks. Shareholders complain and even attack, management manipulates, and individual board members have little power, able to act only as part of the board as a whole. Governance issues are front and center, yet there is often little understanding, even among board members, of the key role that they play. Written in an accessible and human voice, The Governance Revolution: What Every Board Member Needs to Know, NOW! provides information and context essential to anyone seeking to understand how corporations and their stewards/the board of directors/can and should function in the volatile world we inhabit. Deborah Hicks Midanek offers useful insight into what board members of corporations actually do, the current standards for board members and why they exist. She includes a timely discussion of how clarity of purpose can improve board and director effectiveness. Informed by her long experience serving public, private, and family owned corporate boards as well as those of charitable, and government organizations, she provides essential context regarding the evolution of board practice as well as candid discussion of the issues involved in the relentless effort to improve corporate governance processes. Focused mainly on the dominant public corporation, she also explores the special challenges of serving private and family owned as well as nonprofit and public agency boards. Written by a seasoned board member, and liberally laced with stories and cases illustrating the tricky issues directors wrestle with, this book is the essential common-sense companion for anyone working with a board, serving on a board, or wanting to do so. Directors, aspiring directors, investors, and students of corporate behavior will benefit from this highly readable description of the cloistered boardroom. There is a chapter of World War 2 history that remains largely untold: the story of the fourth largest Allied military of the war, and the only nation to have fought in the battles of Leningrad, Arnhem, Tobruk and Normandy. This is the story of the Polish forces during the Second World War, the story of millions of young men and women who gave everything for freedom and in the final victory lost all. In a cruel twist of history, the monumental struggles of an entire nation have been largely forgotten, and even intentionally obscured. Available for the first time in paperback, No Greater Ally redresses the balance, giving a comprehensive overview of Poland's participation in World War 2. Following their valiant but doomed defense of Poland in 1939, members of the Polish armed forces fought with the Allies wherever and however they could. With previously unpublished first-hand accounts, information never before seen in English, and rare photographs, this title provides a detailed analysis of the devastation the war brought to Poland, and the final betrayal when, having fought for freedom for six long years, Poland was handed to the Soviet Union.

During World War II at least 13.5 million people were employed as forced labourers in Germany and across the territories occupied by the German Reich. Most came from Russia, Ukraine, Belarus, Moldavia, the Baltic countries, France, Poland and Italy. Among them were 8.4 million civilians working for private companies and public agencies in industry, administration and agriculture. In addition, there were 4.6 million prisoners of war and 1.7 million concentration camp prisoners who were either subjected to forced labour in concentration or similar camps or were 'rented out' or sold by the SS. While there are numerous publications on forced labour in National Socialist Germany during World War II, this publication combines a historical account of events with the biographies and memories of former forced labourers from twenty-seven countries, offering a comparative international perspective.

When Barton isn't battling gale-force winds and monstrous waves, he's coping with seasick sailors and budding rivalries that threaten to turn mutinous. Hanging over the ship like a storm cloud is the knowledge that the world is at war and the enemy is never far away. One of the few honest and straightforward sea books that have come out of the war!
