Thinking With Intelligence

professionals are

commonly viewed as
solo operators. But these
days intelligence work
is mostly about
collaboration.

Interdisciplinary and
even inter-
organizational teams are
necessary to solve the
really hard problems

Read Book Collaborative Intelligence

professionals face.

Tragically, these teams often devolve into wheel-spinning, contentious assemblies that get nothing done. Or members may disengage from a team if they find its work frustrating, trivial, or a waste of their time. Even teams with a spirit of camaraderie may take

Read Book Collaborative

actions that are flat-out wrong. But there is also good news. This book draws on recent research findings as well as Harvard Professor Richard Hackman's own experience as an intelligence community researcher and advisor to show how leaders can create an environment where teamwork flourishes. Hackman

Read Book Collaborative

identifies six enabling conditions – such as establishing clear norms of conduct and providing well-timed team coaching – that increase the likelihood that teams will be effective in any setting or type of organization..

Although written explicitly for intelligence, defense, crisis management, and

Read Book Collaborative

law enforcement professionals it will also be valuable for improving team success in all kinds of leadership, management, service, and production teams in business, government, and nonprofit enterprises.

Read Book Collaborative

Intelligence is key for organizations in the 21st century, yet few business people have been trained to teach this skill. How do you advance ideas in a collaborative way and then communicate them throughout your company? In this practical book, author Gretchen Anderson shows you how to

Read Book Collaborative

her journey of illness and recovery in this inspiring guide to living your life to the fullest.

In *I Will Not Die an Unlived Life*, Dawna Markova recounts her incredible journey from being diagnosed with a life-threatening illness to finding deeper meaning in her life.

Along the way, she guides readers toward

Read Book Collaborative

discovering their own sense of value and purpose. When we feel lost, Markova points out, we can either continue to live habitual lives and resign our strength—or we can choose to follow our passions. Many of us have times of feeling stagnant and sapped of energy. Rather than

Read Book Collaborative

negatively, Dr. Markova reframes them as periods of rest for our passions. In doing so, she challenges us to slow down and stay in touch with ourselves.

Poetic and inspiring, *I Will Not Die an Unlived Life* is a powerful reminder that it is never too late to live your life.

"A new field of

Page 75/88

Read Book Collaborative

collective intelligence has emerged in the last few years, prompted by a wave of digital technologies that make it possible for organizations and societies to think at large scale. This "bigger mind"--Human and machine capabilities working together--has the potential to solve the great challenges of our

Read Book Collaborative

time. So why do smart technologies not automatically lead to smart results? Gathering insights from diverse fields, including philosophy, computer science, and biology, Big Mind reveals how collective intelligence can guide corporations, governments, universities, and societies to make the
