A commercial bank is a type of financial institution that provides services like accepting deposits, making business loans, and offering basic investment products. The term commercial bank can also refer to a bank, or a division of a large bank, which precisely deals with deposits and loan services provided to corporations or large or middle-sized enterprises as opposed to individual members of the public or small enterprises.

Bank Management - Commercial Banking - Tutorialspoint

A commercial bank is a financial institution which performs the functions of accepting deposits from the general public and giving loans for investment with the aim of earning profit. In fact, commercial banks, as their name suggests, axe profit-seeking institutions, i.e., they do banking business to earn profit.
