This is a book about a gambling system that works. It tells the story of how the author used computer simulations and mathematical modeling techniques to predict the outcome of jai-alai matches and bet on them successfully - increasing his initial stake by over 500% in one year! His results can work for anyone: at the end of the book he tells the best way to watch jai-alai, and how to bet on it. With humour and enthusiasm, Skiena details a life-long fascination with computer predictions and sporting events. Along the way, he discusses other gambling systems, both successful and unsuccessful, for such games as lotto, roulette, blackjack, and the stock market. Indeed, he shows how his jai-alai system functions just like a miniature stock trading system. Do you want to learn about program trading systems, the future of Internet gambling, and the real reason brokerage houses don't offer mutual funds that invest at racetracks and frontons? How mathematical models are used in political polling? The difference between correlation and causation? If you are curious about gambling and mathematics, odds are this book is for you!

It includes input from 400 recovered bulimics.

From Barbara Carrellas, sex expert and author of the best-selling book *Urban Tantra*, comes *Ecstasy is Necessary*. This is not your average tips-and-techniques sex book; rather it is an exploratory journey of the sexual self and the infinite possibilities of ecstatic expression. In *Ecstasy is Necessary*, Carrellas teaches readers how to discover, nurture, expand, and embrace their authentic, ever-evolving, sensual, sexual self. Everyone goes through different phases of sexual expression and desire, and there are an infinite number of erotic and ecstatic possibilities available at all points along the way. The insights readers will gain in their journey with Carrellas will help them confidently approach sex and relationships in a way that works for them no matter where they are in their sexual evolution. They will get tools for solving the inevitable challenges that arise. They'll even receive permission not to have sex at all, if that's what's right for them, because it is possible to create ecstatic experiences even when sex itself is not possible, available, or appropriate. Using stories and simple exercises, Carrellas helps readers understand how they are wired for sex and relationships, what their personal warning signs look like, and what they need for optimum care. Plus, they'll learn how to effectively communicate this information to others so that they can be loved more easily and effectively. As readers discover their authentic sexual selves, they will learn how to create the conditions that allow more and more of their experiences and relationships to be opportunities for-and invitations to-ecstasy.
