Music, magic, and a real-life miracle meld in this genre-defying masterpiece from Newbery Honoree Pam Muñoz Ryan! Winner of a 2016 Newbery Honor, ECHO pushes the boundaries of genre, form, and storytelling innovation. Lost and alone in a forbidden forest, Otto meets three mysterious sisters and suddenly finds himself entwined in a puzzling quest involving a prophecy, a promise, and a harmonica. Decades later, Friedrich in Germany, Mike in Pennsylvania, and Ivy in California each, in turn, become interwoven when the very same harmonica lands in their lives. All the children face daunting challenges: rescuing a father, protecting a brother, holding a family together. And ultimately, pulled by the invisible thread of destiny, their suspenseful solo stories converge in an orchestral crescendo. Richly imagined and masterfully crafted, this impassioned, uplifting, and virtuosic tour de force will resound in your heart long after the last note has been struck.

This best-selling and highly-praised book provides a practical and clinically useful introduction to echo. The author explains the echo techniques available, what an echo can and cannot give, and, importantly, puts echo into a clinical perspective. The sections are ordered with the techniques most often used to diagnose a particular clinical problem explained first. The final chapter deals with special clinical situations.
