In *Churches of Minnesota*, Alan Lathrop profiles more than one hundred religious buildings in a valuable compendium made even richer by the photography of Bob Firth. More than 140 black-and-white and full-color images present a comprehensive view of the architectural styles that make up Minnesota's religious and

cultural heritage. Lathrop embarked on a journey to explore the architectural histories of churches in every corner of Minnesota, and what he found was a panorama of designs steeped in the traditions of their communities. From the board and batten siding on the tiny St. Mark's Episcopal Chapel in Annandale to the grand elegance of St. Paul's cathedral, Lathrop discusses a variety of architectural styles in both urban and rural settings across the state. He reveals the intrinsic character of these buildings and uncovers the enchanting stories behind the lives of those connected to each church - the architects, the leaders, the parishioners - and the history that brought them to where they are today.

It is a commonplace that the modern world cannot be experienced as enchanted--that the very concept of enchantment belongs to past ages of superstition. Jane Bennett challenges that view. She seeks to rehabilitate enchantment, showing not only how it is still possible to experience genuine wonder, but how such experience is crucial to motivating ethical behavior. A creative blend of political theory, philosophy, and literary studies, this book is a powerful and innovative contribution to an emerging interdisciplinary conversation about the deep connections between ethics, aesthetics, and politics. As Bennett describes it, enchantment is a sense of openness to the unusual, the captivating, and the disturbing in everyday life. She guides us through a

wide and often surprising range of sources of enchantment, showing that we can still find enchantment in nature, for example, but also in such unexpected places as modern technology, advertising, and even bureaucracy. She then explains how everyday moments of enchantment can be cultivated to build an ethics of generosity, stimulating the emotional energy and honing the perceptual refinement necessary to follow moral codes. Throughout, Bennett draws on thinkers and writers as diverse as Kant, Schiller, Thoreau, Kafka, Marx, Weber, Adorno, and Deleuze. With its range and daring, *The Enchantment of Modern Life* is a provocative challenge to the centuries-old "narrative of disenchantment," one that presents a new "alter-tale" that discloses our profound attachment to the human and

nonhuman world.
