Re: Evinrude 235 V6 The basic parts
between the 175 and 235 are identical and
should interchange. They are both big bore
blocks with 1 3/8" carbs. The 235 was
crank rated, the 175 is a propshaft rated
engine. Same thing. The 235 was a very
optimistic rating at the time and the 175 is
a conservative propshaft rating.
