The inpatient coding system is solely based on the assignment of ICD-9/10-CM diagnostic and procedural codes for billing and appropriate reimbursement. It's the standard coding system used by physicians and other healthcare providers for classification and coding of all diagnoses. It uses ICD-10-PCS to report procedures.

Difference Between Outpatient Coding and Inpatient Coding ...

One physician should bill for inpatient encounter: Do not assume you can bill for initial inpatient care (99221-99223) just because the doctor performed a face-to-face visit with the patient in the hospital on the day of admission. If an inpatient claim has already been submitted by another provider, select a subsequent hospital care code (99231-99233).
