One October night in 1975 Richard, aged five, was alone in the house with his three sisters. It was 3am and their mother hadn't come home yet. Next morning, the police arrived to take the children away. Their mother had become the first victim of a serial killer soon to become known as the 'Yorkshire Ripper'. Passed from one violent home to another, the children were forgotten by all except the press. As the salacious headlines multiplied, Richard and his sisters were never able to recover from their mother's murder. Whilst Richard tried to handle the terror of his violent upbringing, his sister struggled to deal with memories of sexual abuse. Without love or support they spiralled away from help

or happiness. Then one day Richard McCann, having reached suicidal rock bottom, decided no one was going to rescue their lives but him. It was the beginning of an inspirational transformation. Now he is able to tell the story of how the forgotten children of violence suffer, and how they can heal. A heartbreaking, uplifting story of survival and hope.

A mother presents the life of her son, Ben Underwood, who lost his vision at the age of two due to a rare cancer and who learned to overcome his limitation through echolocation, a method of determining location and objects through the reflection of soundwaves.

This is the story of a boy called Richard. One October night in 1975

Richard, aged five, was alone in the house with his three sisters. It was 3am and their mother hadn't come home yet. He and his oldest sister pulled on their coats over their pyjamas and set off through the foggy streets hand in hand to find her. But at dawn they returned home alone. Within a few hours the police arrived and took the children away. They gave them mugs of hot chocolate and then said, 'you won't be seeing your mother again.' She was the first victim of the serial killer who to become known as the 'Yorkshire Ripper' and from that moment on Richard and his sisters' childhoods were destroyed. Passed from one violent home to another, subject to physical and mental abuse, the children were forgotten by all except the press. As the killer claimed one victim after the other, and the

Childhood salacious magazines and headlines multiplied, Richard and his sisters were never able to grieve or recover from the agonising tragedy of their mother's murder. Whilst Richard tried to handle the terror and shame of his violent and deprived upbringing, his sister struggled to deal with memories of the serious sexual abuse she had suffered. Without love or support they floundered through their teens from drink to drugs to crime. Until one day in the late Nineties when Richard McCann, having reached suicidal rock bottom, decided that no one was going to rescue their lives but him. That no one could solve the past and only he could remedy the future. It was the beginning of an inspirational transformation that saw Richard rebuild his life. Now he is able to tell the story of how the forgotten children

Childhood of violence suffer, and how they can heal. A heartbreaking, up-lifting story of survival and hope.

This is the inspiring account of a family's struggle to break into their son's autistic world - and how a beautiful retriever dog made the real difference. Dale was still a baby when his parents realised that something wasn't right. Worried, his mother Nuala took him to see several doctors, before finally hearing the word 'autism' for the first time. Scared but determined that Dale should live a fulfilling life, Nuala describes her despair at her son's condition, her struggle to prevent Dale being excluded from a 'normal' education and her sense of hopeless isolation. Dale's autism was severe and violent and family life was a daily battleground. But the Gardner's lives

were transformed when they welcomed a gorgeous Golden Retriever into the family. The special bond between Dale and his dog Henry helped them to produce the breakthrough in Dale they had long sought. From taking a bath to saying 'I love you', Henry helped introduce Dale to all the normal activities most parents take for granted, and set him on the road to being the charming and well-adjusted young man he is today. This is a heartrending and fascinating account of how one devoted and talented dog helped a little boy conquer his autism.

Childhood sales executive, befriended an eleven-year-old panhandler, changing both of their lives forever.

"On an island lives a boy called Peter and his band of merry lost boys, young forever. That is, unless they get sick or killed by pirates or eaten by crocodiles or unless--inexplicably--they grow old. For some of them do grow old, and nobody knows why. One of these boys is called Jamie, and he was the first boy that Peter ever brought to the island. Jamie's lived there for longer than he can remember, and it's not all fun and games. Peter thinks the boys are replaceable, that if one dies or grows up, he can swap in another from the Other Place, the place where he collects new playmates. Jamie looks out for the boys and takes care of them. He does everything Peter does
