The ketogenic diet is a natural, non toxic, science based cancer diet which can be used for cancer prevention and treatment. It works because cancer cells are dependent upon a constant supply of blood sugar (glucose) to stay alive. Normal cells can use ketones as an alternative fuel, cancer cells can't. A ketogenic diet lowers blood glucose while increasing ketone levels, a metabolic state which effectively starves cancer cells while nourishing normal cells. This essential, well referenced book is based on cutting edge research on ketogenic dietary therapies from Dr. Dominic D'Agostino at the University of South Florida and Dr. Thomas Seyfried at Boston College, with their generous permission. The book offers the latest information on: * How and why a low carb, high fat ketogenic diet works to stop cancer cells, how to implement the diet and how to monitor your progress* Blood glucose and ketone level targets recommended to destroy cancer*What foods to choose and how much to eat *Why certain foods must be restricted*Use of calorie restriction and fasting*Whether alcohol is allowed *The debate between acidity vs alkalinity*Appropriate supplementation and much more.

How many great ideas begin with a nagging thought in the middle of the night that should disappear by morning, but doesn't? For Daniel Shumski, it was: Will it waffle? Hundreds of hours, countless messes, and 53 perfected recipes later, that answer is a resounding: Yes, it will! Steak? Yes! Pizza? Yes! Apple pie? Emphatically yes. And that's the beauty of being a waffle iron chef—waffling food other than waffles is not just a novelty but an innovation that leads to a great end product, all while giving the cook the bonus pleasure of doing something cool, fun, and vaguely nerdy (or giving a reluctant eater—your child, say—a great reason to dig in). Waffled bacon reaches perfect crispness without burned edges, cooks super fast in the two-sided heat source, and leaves behind just the right amount of fat to waffle some eggs. Waffled Sweet Potato Gnocchi, Pressed Potato and Cheese Pierogi, and Waffled Meatballs all end up with dimples just right for trapping their delicious sauces. A waffle iron turns leftover mac 'n' cheese into Revitalized Macaroni and Cheese, which is like a decadent version of a grilled cheese sandwich with its golden, buttery, slightly crisp exterior and soft, melty, cheesy interior.

'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.' - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to

get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.
