Nfpa 1962 2013 Edition - wearefamily-member-app.youi.design

Hydrostatic testing per NFPA Standards requires unique, specialized equipment not commonly found in most Fire Departments. NHTS has the right tools and equipment to accurately and safely perform this testing. NFPA 1962, 2013 Edition requires nozzles and fire hose appliances to be static tested annually. The static test requires the nozzle and/or the appliance to be tested at 50psi increments for 30 seconds each until reaching 300 psi and then hold for 1 minute.
