This book presents refereed proceedings of the First International Conference on Algebra, Codes and Cryptology, A2C 2019, held in Dakar, Senegal, in December 2019. The 14 full papers were carefully reviewed and selected from 35 submissions. The papers are organized in topical sections on non-associative and non-commutative algebra; code, cryptology and information security.

Governments, business, international bodies and local groups are turning to multi-stakeholder processes to find practical ways forward. This book explains how MSPs can be organized to deliver their potential for successful resolution of complex issues and for sustainable development. It includes detailed examples and provides practical checklists, explaining how to get beyond adversarial politics and achieve positive results.
