the National Medal of Science in 1975. Walter E. Hanson is the author of Foundation Engineering, 2nd
Edition, published by Wiley.

Foundation Engineering, 2nd Edition | Wiley

The foundation is that portion of a structure that transmits the loads from the structure to the
underlying foundation material. There are two major requirements to be satisfied in the design of
foundations: (a) Provision of an adequate factor of safety against failure of the foundation material.
Failure of the foundation material may lead to failure of the foundation and may also lead to ...
