SHELL has said its huge floating LNG production plant – the Prelude FLNG facility – is not expected to resume full production this year, following a troubled start for the pioneering facility. Production aboard Prelude – which at 488 m long is the largest ship ever built – was halted in February after an electrical trip and it has not resumed. This fault followed, though was not linked to, an order from Australia ' s National Offshore Petroleum Safety and Environmental Management ...

Good and Evil is a philosophical book by Friedrich Nietzsche, in which he draws on and expands the ideas of his previous work, Thus Spoke Zarathustra, but with a more critical and polemical approach. In Beyond Good and Evil, Nietzsche accuses past philosophers of lacking critical sense and blindly accepting dogmatic premises in their consideration of morality. Specifically, he accuses them of founding grand metaphysical systems upon the faith that the good man is the opposite of the evil man, rather than just a different expression of the same basic impulses that find more direct expression in the evil man. The work moves into the realm "beyond good and evil" in the

sense of leaving behind the traditional morality which Nietzsche subjects to a destructive critique in favor of what he regards as an affirmative approach that fearlessly confronts the perspective nature of knowledge and the perilous condition of the modern individual. Friedrich Wilhelm Nietzsche (1844-1900) was a German philosopher, cultural critic, poet, and Latin and Greek scholar whose work has exerted a profound influence on Western philosophy and modern intellectual history. Before turning to philosophy, he began his career as a philologist and worked at the Department of Classical Philology at the University of Basel, but he had to retire due to health problems. Nietzsche's body of

After the previous great battle of modern times, Reformed Vampires, known as 'Reefers' and humans had learned to live side by side. Lycanthropes agreed upon a truce with their age-old enemies the vampires. Once again, society was rebuilt and for over a decade, there was peace. The resurgence of Zaegon and Melanie would once again recruit dissident vampires for their evil cause and once again, Nathan, Boni and their allies would

face another threat to their civilisation and survival. The Devil himself would be at the forefront of the dissident vampire armies and the hordes of demons. The final solution would be something on scale, never yet witnessed by mankind.

Four women, different backgrounds, different temperaments, are unexpectedly recruited for a secretive Code-11 assignment. Their objective: assassinate four key men who threaten to topple the American government from within. However, for these ladies, the mission is not their greatest challenge. Headstrong Gabrielle Cyntrell, explosives expert. Belligerent Carlotta Charly Morgonelli, knife-wielding rebel. Damaged Rebecca Stanton, weapons designer. Genteel Corrine Eizenberg, research chemist. And according to their boss, hard-core Junifer Morison, this unique group was chosen for three distinct reasons: they're experts in their field, all are 50-something women fluent in German, making them less likely to be identified as killers, and they're expendable. From the top-secret bureaucracy of present day U.S. government, to the former sinister regime of Hitler's army, Prelude is a high-stakes thriller which finds
