The perfect mix of classic and contemporary readings.

This best-selling anthology provides excellent coverage of key concepts in sociology including culture, socialization, deviance, social structure, social institutions, and social inequality. Drawing from a wide selection of classic and contemporary works, the 58 selections represent a plurality of voices and views within sociology. Students will be introduced to cutting edge scholarship and perspectives through classical readings from great thinkers like C. Wright Mills, Karl Marx, Howard Becker, and Max Weber and contemporary articles on current issues like gender socialization, healthcare reform, and minorities in the power elite. By integrating issues of diversity throughout the book, Ferguson helps students see the interrelationships between race-ethnicity, social class, and gender, as well as how these relationships have shaped the experiences of all people in society. Each selection is preceded by a brief introduction that highlights the key sociological concepts for students consider as they read.

This classic introduction to sociology as a "perspective" gives readers a sound understanding of key sociological concepts as well as insight into how sociologists view society and human beings. Clearly written and organized, it shows readers how the various aspects of sociology fit together and are relevant to their own lives. The volume addresses the discipline of sociology, sociology as a perspective, how sociologists think, social structure, inequality in society, culture, social institutions, the interrelationships among organizations, social order, control, deviance and power, social change, the family in society and the meaning and uses of sociology. For those interested in the sociology of humans.

The textbook and readings that teach students how issues in our global society connect to their own lives.

This new edition provides an introduction to the sociological study of social psychology, interpersonal interaction, and the social shaping of human experience. The primary source articles feature both contemporary and classic theoretical statements as well as empirical studies.

The most relevant textbook for today's students.

The Third Edition of Our Social World: Introduction to Sociology is truly a coherent textbook that inspires students to develop their sociological imaginations, to see the world and personal events from a new perspective, and to confront sociological issues on a day-to-day basis. Key Features: \* Offers a strong global focus: A global perspective is integrated into each chapter to encourage students to think of global society as a logical extension of their own micro world. \* Illustrates the practical side of sociology: Boxes highlight careers and volunteer opportunities for those with a background in sociology as well as policy issues that sociologists influence. \* Encourages critical thinking: Provides various research strategies and illustrates concrete examples of the method being used to help students develop a more sophisticated epistemology. \* Presents "The Social World Model" in each chapter: This visually-compelling organizing framework opens each chapter and helps students understand the interrelatedness of core concepts. New to the Third Edition: \* Thirty new boxed features, including the innovative 'Engaging Sociology' and 'Applied Sociologists at Work' features \* Three substantially reorganised chapters (2. Examining the Social World, 3. Society and Culture, and 13. Politics and Economics) \* 315 entirely new references and 120 new photos.

A strong emphasis has been placed on creating a productive mixture of classic and contemporary readings which is highly readable and lively, yet remains challenging. Whilst particularly useful as a companion to the sixth edition of Giddens's Sociology, the reader is designed for use independently or alongside other textbooks. The reader maintains the distinctive approach which Sociology pioneered: strongly comparative and historically informed, it stresses the influence of globalizing trends in social life. The carefully selected readings range from studies of face-to-face interaction through to the analysis of large-scale global systems, and cover sociological theories of society as well as research methods. Amongst the new selections in this volume are readings on the Internet and virtual communities, the impact of ecological thinking and climate change on social science, offshoring and the future of work, global cities, patriarchy and shifting gender relations, intersecting social inequalities, the idea and practice of restorative justice, new forms of cybercrime, war, terrorism and the prospects for a global cosmopolitan democracy. The readings are arranged in ten thematic sections and each section is preceded by a summary in order to facilitate students' comprehension and critical reflection. The result is an exciting new text that encompasses the major themes and debates in both classical and contemporary sociology. Sociology: Introductory Readings will be an essential resource for anyone who wishes to engage with the scope of sociological thought today. -- Back cover.

Drawing from a wide selection of classic and contemporary works, this best-selling reader includes 56 readings that represent a plurality of voices and views within sociology.

This best-selling introductory sociology reader provides classical, contemporary and cross-cultural readings on each key sociological topic. Seeing Ourselves strives to showcase the different perspectives sociology offers and the complexity of the social world. This reader has 72 readings composed of 26 Classic articles, 26 Contemporary articles, and 20 Cross-cultural articles.
