English spy Andrew Truesdale has been sent to Florence on a mission--to befriend widowed contessa Olivia di Montebaldi and discover if she's plotting a nationalist revolution in the aftermath of Napoleon's defeat. Andrew expects the assignment to be easy. After all, his job with the British Diplomatic Corps required him to perfect the art of flirtation and become a consummate seducer of women. Everything changes, however, when he arrives at Olivia's villa. Instead of the middle-aged woman he expects, Andrew finds a vivacious young beauty who piques his interest...and his lust. But while Andrew may be taken aback by the contessa, Olivia knows exactly who Andrew is...and that he is dangerous. She may let him claim her body, but can she trust him with her secrets?

Chapter 1 places into perspective a total Information Storage and Retrieval System. This perspective introduces new challenges to the problems that need to be theoretically addressed and commercially implemented. Ten years ago commercial implementation of the algorithms being developed was not realistic, allowing theoreticians to limit their focus to very specific areas. Bounding a problem is still essential in deriving theoretical results. But the commercialization and insertion of this technology into systems like the Internet that are widely being used changes the way problems are bounded. From a theoretical perspective, efficient scalability of algorithms to systems with gigabytes and terabytes of data, operating with minimal user search statement information, and making maximum use of all functional aspects of an information system need to be considered. The dissemination systems using persistent indexes or mail files to modify ranking algorithms and combining the search of structured information fields and free text into a consolidated weighted output are examples of potential new areas of investigation. The best way for the theoretician or the commercial developer to understand the importance of problems to be solved is to place them in the context of a total vision of a complete system. Understanding the differences between Digital Libraries and Information Retrieval Systems will add an additional dimension to the potential future development of systems. The collaborative aspects of digital libraries can be viewed as a new source of information that dynamically could interact with information retrieval techniques.

Old secrets die hard in the tavistock family... In Their Footsteps The quiet scandal surrounding her parents' deaths twenty years ago has always haunted Beryl Tavistock. Now she's decided that the only way to exorcise the ghosts of the past is to search for the truth. Beryl starts asking dangerous questions, and the answers are proving that old secrets die hard. Caught in what's become a deadly game of cat-and-mouse, her quest takes her from the rain-slick streets of Paris to the sun-drenched isles of Greece. And as she gets pulled into a world of espionage, Beryl quickly discovers that she needs help. Richard Wolf, an ex-CIA agent and a man she's only just met, is her only hope. But in a world where trust is a double-edged sword, friends become enemies, and enemies become killers... Stolen Reformed cat burglar Clea Rice has witnessed enough crimes to put her on the straight and narrow. But little does she suspect that her search for justice will land her in the arms of wealthy English gentleman Jordan Tavistock. As their attraction grows, so does the danger. Now their biggest concern isn't whether a proper gentleman and a cat burglar can find happiness...it's whether they'll survive long enough to find out.

What if a beautiful dress could take you back in time? Louise Lambert's best friend's thirteenth birthday party is fast approaching, so of course the most important question on her mind is, "What am I going to wear?!" Slipping on an exquisite robin's egg blue gown during another visit to the mysterious Traveling Fashionista Vintage Sale, Louise finds herself back in time once again, swept up in the glory of palace life, fancy parties, and enormous hair as a member of the court of France's most infamous queen, Marie Antoinette. But between cute commoner boys and glamorous trips to Paris, life in the palace isn't all cake and couture. Can Louise keep her cool-and her head!-as she races against the clock to get home?

Turned at Dark: A Bonus Shadow Falls Short Story Independent and strong-willed Della Tsang did not believe in ghosts, until she sees her dead cousin in a dark alley. She did not believe in vampires, until she turns into one. Should she follow her vampire cousin's lead and walk away from everything she knows, or join Shadow Falls, a camp for special teens? This short story from C.C. Hunter gives readers a look into Della's history—a must-read for Shadow Falls fans.
