One effective approach involves thinking of the questioning process as a funnel, similar to a funnel used to pour a liquid.⁷ In its design, a funnel is broad near the top and gradually narrows until it culminates in a very small opening at the bottom. Using this analogy and employing the categorization of questions as either closed or open-ended,

THE FUNNEL APPROACH TO QUESTIONING AND ELICITING INFORMATION

The reverse of narrowing the funnel is to broaden the funnel, asking questions that give you less specific information and more information about more general topics. Decreasing detail is similar to inductive reasoning, where thinking goes from specific to more general. Use broadening questions

Funnel Questioning - Changing minds

One of the most effective questioning techniques is called the "funnel" approach. Picture what a funnel looks like--wide at the top and narrow at the bottom. The idea is to ask broad, very general questions at the beginning and continue to narrow the focus of your questions with greater specificity.

"Funnel" Your Questions for Positive Results

A way of ordering questions in a questionnaire so that general questions are asked before specific questions. This ordering avoids the responses to specific questions biasing the answers to general questions.

Funnel Approach | Insights Association

"Who questions much, shall learn much, and retain much" FRANCIS BACON. Funnelling is a 3 stage process: Open. Ask an open question. These can start with the 5 W's and the H (What; Why; When; Who; Where; How) or using T.E.D. (Tell; Explain; Describe). For example: - Tell us how you produced that report

Funnelling Technique in Interviewing | TrainingZone

The funnelling technique is a communication process to help ensure: - the right type of questions are asked. - detailed responses are given. - accurate notes of the responses are captured. "Who questions much, shall learn much, and retain much". FRANCIS BACON.

Funnelling Technique in Interviewing | HRZone

The most typical and effective approach in constructing an interview or discussion guide is to begin broadly and progressively narrow the topic area to the subject matter of greatest importance to the research objectives, i.e., a "funnel" approach. The funnel consists of four basic stages. Stage 1: Introductions
