**The Index Card: Why Personal Finance Doesn't Have to Be ...**

Somewhat paradoxically for a book of 210 pages, the premise of The Index Card is that the necessary rules of personal finances can fit on (wait for it) an index card. As the authors sensibly explain in the beginning, however, basic rules often require a little elaboration to be implemented, and that is what the book tries to do.

Apr 26, 2020 - By Edgar Wallace The Index Card Why Personal Finance Ebook Epub personal finance is the application of the principles of finance to the monetary decisions of an individual or family unit it addresses the ways in which individuals or families obtain budget save and spend

"The newbie investor will not find a better guide to personal finance." —Burton Malkiel, author of A RANDOM WALK DOWN WALL STREET TV analysts and money managers would have you believe your finances are enormously complicated, and if you don't follow their guidance, you'll end up in the poorhouse. They're wrong. When University of Chicago professor Harold Pollack interviewed Helaine Olen, an award-winning financial journalist and the author of the bestselling Pound Foolish, he made an offhand suggestion: everything you need to know about managing your money could fit on an index card. To prove his point, he grabbed a 4" x 6" card, scribbled down a list of rules, and posted a picture of the card online. The post went viral. Now, Pollack teams up with Olen to explain why the ten simple rules of the index card outperform more complicated financial strategies. Inside is an easy-to-follow action plan that works in good times and bad, giving you the tools, knowledge, and confidence to seize control of your financial life.

In The Index Card, Helaine Olen and Harold Pollack draw on years of experience researching and reporting on financial lives to present an accessible, one-stop guide to taking back your financial future. Beyond outlining rules for financial success, the authors also explain why so few people follow them. The answers to healthy finance, it turns out, are simple enough to fit on an index card. Armed with The Index Card, readers will gain the tools, knowledge and confidence to make the right decisions regarding their money.

Describes how a financial column assignment revealed to the author the unethical machinations of the multi-billion-dollar personal finance industry and its false promises of quick and easy wealth, explaining how everyday investors are routinely misled by self-proclaimed money experts who exploit clients to increase their own wealth.

Simplify Your Strategy and Magnify Your Results. Can your business strategy fit on an index card? Can you run your sales job from an index card? Can it really be that simple? Yes, yes, and yes ... eventually. Achieving simplicity isn't easy, but the rewards are extraordinary. The good news is the hard work has already been done. The blueprint for simplifying your strategy has been created. The Index Card Business Plan lays out a proven system (the Pillar System) to develop a simple strategy - a strategy to cut through the clutter and move you toward clarity, simplicity and most importantly ... results.

When it comes to protecting your financial future, starting sooner rather than later is the smartest thing you can do. This hands-on guide provides you with the targeted financial advice you need to establish firm financial footing in your 20s and to secure your finances for years to come.

Addresses areas of key concern for readers in their twenties and thirties, covering such topics as 401(k) and retirement planning, effective budgeting that takes into accounts spiraling costs and growing families, and the latest internet banking technologies. Original.

What Are You Waiting For? This book will change the way you think about investing-and the results will prove it! "This is the simple hands-on, how-to and why book many readers have been looking for." -Scott Burns, syndicated columnist Daniel Solin cuts through the financial hype to show you exactly how to invest-with an easy-to-follow four-step plan that lets you create and monitor your investment portfolio in ninety minutes or less...and put your investment earnings in the top 5 percent of all professionally managed money. If you want to gamble, go to Las Vegas-or try stock picking and market timing. If you want to be a Smart Investor, follow this effortless and effective plan. "The Smartest Investment Book You'll Ever Read will provide the enlightenment and gumption to free yourself from the clutches of the investment industry and the wisdom and direction necessary to get yourself back on track." -William Bernstein, author of A Splendid Exchange and The Four Pillars of Investing Every day you wait costs you money. Take control of your financial future now!

The bestselling book that the New York Times hailed as "a highly readable and substantial guide to the grown-up realms of money and business." Get a Financial Life is a must-read for anyone in their twenties and thirties (or beyond) who wants to understand the basics of personal finance. If you've been meaning to get your finances in shape but have no idea where to start, this is your playbook. Get a Financial Life busts open the system, teaching tricks for becoming master of your own money universe. No matter what's happening in the economy, all the guidance you need is right here. You'll learn how to: • Pay off your credit cards and student loans and live debt free • Start saving, even if you're living paycheck to paycheck • Take advantage of the latest tax rules and save a bundle • Find smart investments while still supporting socially responsible companies • Come up with a down payment and buy a home, even in a tough economy • Afford grad school • Protect yourself from identity theft And you'll discover why a 401(k) is your best friend—in boom times and even if the market is tanking. From tracking your spending to finding deals on insurance to navigating the new world of homebuying, this easy-to-understand, comprehensive guide provides an up-to-date road map of the world of personal finance. Whether you earn \$30,000 or \$300,000, are single or married, are drowning in debt or just looking for ways to keep your savings secure in uncertain times, you'll find the answers you need in Get a Financial Life. "A daring book....A life's worth of smart financial advice" (Newsweek).

"With How to Make Your Money Last, you will learn how to turn your retirement savings into a steady paycheck that will last for life. Today, people worry that they're going to run out of money in their older age. That won't happen if you use a few tricks for squeezing higher payments from your assets—from your Social Security account (find the hidden values there), pension (monthly income or lump sum?), home equity (sell and invest the proceeds or take a reverse mortgage?), savings (should you buy a lifetime annuity?), and retirement accounts (how to invest and—critically—how much to withdraw from your savings each year?). The right moves will not only raise the amount you have to spend, they'll stretch out your money over many more years. You will also learn to look at your savings and investments in a new way. If you stick with super-safe choices the money might not last. You need safe money to help pay the bills in your early retirement years. But to ensure that you'll still have spending money 10 and 20 years from now, you have to invest for growth, today. Quinn shows you how. At a time when people are living longer, yet retiring with a smaller pot of savings than they'd hoped for, this book will become the essential guide"---

Two sisters share the system of organising household chores that they created to make managing a home less time consuming and more efficient, in an updated handbook that explains how to reduce chaos and clutter and achieve organisation in the home.
