"The Laws of Thinking" is not a work for the shallow-minded person. It is demanding and challenging. It is neither intended to be used as the basis for unmerited criticism nor as sermon material for the minister having difficulty receiving a fresh work from the Lord. It was written with a very clear aim: to provoke spiritual thought.

The first group includes those norms that are associated with abstract thinking - judgments, concepts, and conclusions. The second type is associated with laws of universal universal character. They are also called major. In particular, it is the law of identity in logic, contradiction, excluded third and sufficient reason.

Logical laws are the law of thinking, the connection of ...

The laws of thought are fundamental axiomatic rules upon which rational discourse itself is often considered to be based. The formulation and clarification of such rules have a long tradition in the history of philosophy and logic. Generally they are taken as laws that guide and underlie everyone's thinking, thoughts, expressions, discussions, etc.
