Writing in the fourth century B.C., in an Athens that had suffered a humiliating defeat in the Peloponnesian War, Plato formulated questions that have haunted the moral, religious, and political imagination of the West for more than 2,000 years: what is virtue? How should we love? What constitutes a good society? Is there a soul that outlasts the body and a truth that transcends appearance? What do we know and how do we know it? Plato's inquiries were all the more resonant because he couched them in the form of dramatic and often highly comic dialogues, whose principal personage was the ironic, teasing, and relentlessly searching philosopher Socrates. In this splendid collection, Scott Buchanan brings together the most important of Plato's dialogues, including Protagoras, The Symposium, with its barbed conjectures about the relation between love and madness, Phaedo and The Republic, his monumental work of political philosophy. Buchanan's learned and engaging introduction allows us to see Plato both as a commentator on his society and as a shaper of the societies that followed, who bequeathed to us a hunger for the ideal as well as a redeeming habit of humane skepticism.

Philosopher John Dewey called Ralph Waldo Emerson "the one citizen of the New World fit to have his name uttered in the same breath with that of Plato."Through his writing and his own personal philosophy, Emerson unburdened his young country of Europe's traditional sense of history and showed Americans how to be creators of their own contexts. With his central text, Nature, he singlehandedly engendered an entire spiritual and intellectual movement in Transcendentalism.Editor Jeffrey S. Cramer has chosen texts like Natureand The American Scholar, along with revelatory journal entries, letters and poetry revealing a stirringly human writer.

In the four and a half centuries since Machiavelli ' s death, no single and unanimously accepted interpretation of his ideas has succeeded in imposing itself upon the lively debate over the meaning of his works. Yet there has never been any doubt about the fundamental importance of Machiavelli ' s contribution to Western political theory.The Portable Machiavelli brings together the complete texts of The Prince, Belfagor, and Castruccio Castracani, newly translated by Peter Bondanella and Mark Musa especially for this volume. In addition, the editors include an abridged version of The Discourses; a play, The Mandrake Root, in its entirety; seven private letters; and selections from The Art of War and The History of Florence.

A collection of Conrad's most enduring work, edited by Pulitzer Prize finalist Michael Gorra A great novelist of the sea, a poet of the tropics, a critic of empire and analyst of globalization, a harbinger of the modern spy novel, an unparalleled observer of the moments in which people are stripped of their illusions-Joseph Conrad is one of the greatest writers of the twentieth century. This revised edition of The Portable Conrad features the best known and most enduring of Conrad's works, including The Secret Agent, Heart of Darkness, and The Nigger of the "Narcissus," as well as shorter tales like "Amy Forster" and "The Secret Sharer," a selection of letters, and his observations on the sinking of the Titanic. The Romans conquered most of the known world and detailed their conquests in calm, unapologetic histories. They were a supremely urbane people who longed poetically for the farming life. Valuing toughness and practicality in all things, they turned the love poem into a cynical rebuke and wrote tragedies in which the unfathomable actions of gods gave way to the staggering cruelties of man. As the empire slid into decay, Tacitus pulled back the curtain on the perverse intrigues of the emperors, and a Roman-educated Christian named Augustine recounted his spiritual awakening in what may be the world ' s first psychological novel. This collection presents the essential writings of the Romans in their finest English translations: the comedies of Terence and Plautus; the histories of Julius Caesar, Livy and Tacitus; the oratory of Cicero; poems by Catullus, Virgil, Horace, and Martial; the philosophy of Lucretius and Bo 6 thus, along with the stylishly narrated and often ribald myths of Ovid and Apuleius.
