At the beginning of
the Civil War,

President Abraham Lincoln and his highest-ranking general, George B. McClellan, agreed that the United States must preserve the Union. Their differing strategies for accomplishing that goal, however, created constant conflict. In Lincoln and McClellan at War,

Chester G. Hearn explores this troubled relationship, revealing its complexity and showing clearly why the two men -- both inexperienced with war -- eventually parted ways. A staunch Democrat who never lost his acrimony toward Republicans --

president -- McClellan
first observed Lincoln
as an attorney
representing the

him. This underlying
bias followed thirty-

army. Lincoln, a man without military training, promoted McClellan on the advice of cabinet members and counted on "Little Mac" to whip the army into shape and end the war quickly. McClellan comported himself with great confidence and won Lincoln's faith by

brilliantly organizing
the Army of the
Potomac. Later,
however, he lost
Lincoln's trust by
refusing to send what
he called "the best
army on the planet"
into battle. The more
frustrated Lincoln
grew with McClellan's
inaction, the more
Lincoln studied

on military strategy and offered strategic combat advice to the general. McClellan resented the president's suggestions and habitually deflected them. Ultimately, Lincoln removed McClellan for what the president termed "the slows."

According to Hearn,

McClellan's

intransigence

stemmed largely

from his reluctance to
fight offensively.

Thoroughly schooled
in European

defensive tactics,

McClellan preferred

that approach to

fighting the war. His

on the other hand,

had a preference for

tactics. This compelling study of two important and diverse figures reveals how personality and politics prolonged the Civil War.

Today, a microorganism's entire genome can be sequenced in a few days. Much as our view of the cosmos was forever altered in the 17th century with the invention of the
