organisations and authentic literature including systematic reviews and meta-analyses. - Thorough: Through 25 chapters and 650 MCQ's, the book covers all avenues of the vast speciality of Urology. The number of MCQ's in each chapter is varied according to the importance of the subject. Each chapter is divided into two parts i.e. questions and answers. - High-standard MCQ's: Each chapter contains MCQ's to evaluate the knowledge, cognitive acumen and clinical skills of the residents. Numerous questions based on real-life scenarios feature frequently in each chapter. The questions feature themes commonly tested in postgraduate examinations. - Comprehensive explanations: The residents will appreciate the detailed explanation of each question in the book, providing utmost clarity regarding why the chosen option is correct. Unlike MCQs in Urology, detailed explanations are often missing from most MCQ books, leaving students with some queries about the asked question and subject. - Relevant figures and tables: To enhance learning and retention, figures and tables are duly included where necessary for added clarity of the subject. These are presented separately in an appendix at the end of the book. - References and further study: Authentic sources of all detailed explanatory answers, whether from high-standard textbooks, published literature or clinical guidelines, are given in italics. At the end of each chapter, suggestions for further study on the subject are listed. Excerpt from

The aim of this book is to provide a selection of representative MCQs together with a detailed explanation of each answer covering the topic in depth. Each chapter has been written by experienced Urological surgeons who have already been successful in passing the examination. In addition to the FRCS(Urol) examination MCQs form the basis of equivalent postgraduate Urological examinations internationally and the scope of this book will be an invaluable addition to individuals sitting the FEBU and similar exams in the USA, Australia and Asian countries. Established consultants may also find the text useful as a 'refresher' in areas outside their subspecialist interest.

This is the first revision book to be published specifically for candidates sitting the FRCS(Urol) examination, which tests the required standard of a recognised Urology specialist. It provides a selection of common clinical scenarios together with a guide to answering the FRCS(Urol) questions. Each chapter is written by Consultant Urological Surge
