The VGF series of high-speed engines are built with the durability expected from a medium-speed engine. This series of engines is designed for a wide range of stationary, spark-ignited, gaseous fuel applications and has a high power-to-weight ratio operating up to 1800 RPM. The VGF Series simplifi es maintenance procedures.

Waukesha gas engines VGF H24GLD - S & L Energie

Versatility for Superior Power Generation For more than three decades, Waukesha Engine's VGF series has delivered consistent critical power from a proven and reliable platform. Ideally suited for a variety of mobile and stationary applications, VGF high-horsepower engines feature smart controls and fuel flexibility.
