I'm selling this AMAZING Wersi Analog Bass Synth .. Since I have two actually :-) I bought a second one as set with the foot pedal, which I'll keep myself. But this one is available. Amazing deep sub bass synth sound! Only the wah-wah function is not working on this one. I'm having it serviced and...

We created a new WersiClubUSA group this morning and are in the process of getting things set up. The whole idea is to make it easier for everyone to share performances, music, files, styles, etc. with each other. Please consider joining the new group. Over time we would like to phase out the old page.

WHO IS WERSI US Jim Vogelmann is the duly authorized WERSI Distributor for the US. WERSI products are distributed worldwide, and the company has maintained only distributors for its products, all of whom are well supported largely by internet servicing, and multiple online information forums.

International Electronics Directory '90, Third Edition: The Guide to European Manufacturers, Agents and Applications, Part 1 comprises a directory of various manufacturers in Europe and a directory of

agents in Europe. This book contains a classified directory of electronic products and services where both manufacturers and agents are listed. This edition is organized into two sections. Section 1 provides details of manufacturers, including number of employees, production program, names of managers, as well as links with other companies. The entries are listed alphabetically on a country-by-country basis. Section 2 provides information concerning agents or representatives, including names of manufacturers represented, names of managers, number of employees, and range of products handled. A number of these companies are also active in manufacturing and so appear in both Section 1 and Section 2. This book is a valuable resource for private consumers.

Current material is filed in binder volumes, which are later reprinted as bound volumes.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.
